

## **How to best balance your time**

*Some general rules to help all degrees!*

### Skills learnt

- Did you learn a specific skill in a particular module like mastering excel etc that would help you as a trainee, definitely mention it!

### Topics interested in

- Did you learn about a finance concept or an aspect of how language is used that informs lawyers work or got you interested in a legal concept, once again use this to answer the big 'Why Law?' question.

### Opportunities

- Did you go on a year abroad, a year in industry or gain an opportunity because of your degree that informed your choice of law or developed a particular skill?

This is a difficult thing to advise on, because it is so personal, but always keep your motivations authentic; if your French module did inspire your interest into law, then say so!
